

Rolling Green Township

c/o Dan Bebernes, Clerk
1544 90th St
Fairmont, MN. 56031

For any work done in the Right-of-Way of any Rolling Green Township road after January 1, 2016, an application will need to be approved by the town supervisors prior to work beginning. Please complete this application and return it, along with the **\$25 filing fee (or \$225 if an open cut is required) payable to Rolling Green Township**, to the above address.

Although much of the application deals with the placement of tile within the Right-of-Way, new driveways and any other work within the Right-of-Way also needs to complete the applicable parts of the Work Permit. For a driveway, the top part as well as sections 3 & 4 need to be completed. If a culvert is required, the size and type of material should be indicated in section 1. A location sketch should also be attached.

As noted in the application, if at any time in the future, the work covered by this application needs to be moved or repaired, it will be the responsibility of the owner to complete this work at their expense. The rules and regulation on page 2 apply to all work done, not just to utilities or tiling.

Additional applications will be available on the Rolling Green Township website: <http://rollinggreentownship.com/>

Your prompt attention to these matters would be appreciated.

Thanks

Dan Bebernes, Clerk
Rolling Green Township

Brian Wannarka, Chairman
Rolling Green Township
